

## Order your 2009/2010 211 Community Services Directory now!

The Support Network's Directory of Community Services is now **The 211 Community Services Directory** ! This directory is an indexed listing of agencies offering human services in **Edmonton only**.

Services address such things as counselling, shelters, family violence prevention, advocacy, youth services, seniors services, addictions, and so much more. It is an invaluable tool for social workers, counsellors, doctors, and any other community caregiver. This is the same information that is used by The Support Network's 211 Program.

As 211 branches out regionally, the service is now available in many communities outside of Edmonton. As a result **The 211 Community Services Directory no longer includes listings for human resources outside of Edmonton**. For locations and information outside Edmonton contact 211 or 780-482-4636 if 211 is not yet available in your area.

We recommend that you check with your workmates to see if several of you would like to order **The 211 Community Services Directory**. There is a discount if you order six or more at a time.

If you need additional information about ordering, please call us at 780-482-0198. If you are picking up an order of The 211 Tough Times Handbook we can arrange for this order to be ready at the same time.
